

FOR IMMEDIATE RELEASE

Silver Platter Solutions - Revolutionizing the Construction Industry by Creating a One Stop Shop Portal for Contractors and Sub Contractors!

Silver Platter Solutions is dedicated to reforming the construction industry by making it more efficient, transparent and streamlined.

New York, New York – April 1, 2017

Silver Platter Solutions (<http://www.spsgp.com>) is a portal created to fill a long awaited need within the construction industry, one that benefits both contractors and specialty contractors. SPS provides a comprehensive online solution for contractors and sub-contractors within the construction industry that comprises everything they need to procure projects – in a much simpler, more cost effective way.

Services provided by Silver Platter Solutions include:

- Lead generation by specific trade and geographic region
- Project details and documents
- Detailed Quantity Estimating and Take-offs
- Material Sourcing, Financing and Management
- Virtual Site Walkthroughs
- Value Engineering
- Ancillary services such as pre-qualifications, project management and advisory work

Yunus Bickici, company CEO and a 20 year veteran of the construction and real estate industry says “We are committed to streamlining the construction industry and simplifying processes for contractors and specialty contractors. Our team of expert architects, engineers and estimators create solutions that ensure greater efficiency, faster growth and tremendous cost savings for our clients.”

Silver Platter Solutions is a one-stop shop for contractors and subcontractors for all their business development needs which results in less risk and significant cost savings.
